**STATEMENT OF WORK FOR SODA WATER STORAGE TANK DIKE**

New Liner material and replacement/repair material specifications will meet or exceed the following specifications:

- **Textured on both sides (Gundline HDT)**
- **60 millimeter thickness**

### **Work requirements are as follows:**

- Inspect, find, and repair leak in liner. (This leak has been potentially identified . It is believed to be located in the liner near a drain where it was supposed to be sealed to allow the water in the dike to be drained. The seal around this has potentially degraded or was never properly sealed. A solution to sealing this is what we are after. There may also be other leaks, possibly along a seam that is not evident. The leak was realized when the liner had contained a considerable amount of water that it was leaking through.) The size of this dike is about 15' x 30' x 3'.
- Contractor can power wash liner to help identify areas in need of repair.

This request in no way binds the U.S. Navy to a contract for the above stated work. This request serves as a reference only for obtaining a service.
